Open to Opportunities

PROFESSIONAL SUMMARY

Software Engineer at Tata Consultancy Services with 5+ years of experience building enterprise web applications. Currently developing a large-scale SAPUI5/Fiori CPQ application on SAP BTP – quote lifecycle, pricing, approvals and DocuSign e-signatures. Background spans React.js + TypeScript frontends, Flask/Python services and Figma-to-production UI for Pfizer public websites. Also teaches Python through beginner-friendly YouTube tutorials.

TECHNICAL SKILLS

SAP Ecosystem: SAPUI5, SAP Fiori, SAP BTP, SAP CPI (iFlows), SAP CPQ 2.0, OData, Fiori Tools

Frontend: JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, AG Grid, React Hook Form, React Router

Backend & Python: Python (Advanced), Django, Flask, REST APIs, Node.js

Data & Scraping: Pandas, NumPy, MySQL, SQLite, MongoDB, Scrapy, BeautifulSoup, Selenium, Requests

Desktop & Media: Tkinter, customtkinter, PyInstaller, Pygame, OpenCV, Matplotlib

Tools & Practices: Git, GitHub, GitHub Actions (CI/CD), Jira, Postman, Figma, Hugo, Agile, Canvas CMS, DocuSign, OOP, Multithreading

PROFESSIONAL EXPERIENCE

SAP UI5 Developer

2025 – Present

Tata Consultancy Services (SAP Account – HarmonyQuote)

- Develop and maintain a large-scale SAPUI5/Fiori enterprise app integrating SAP CPQ 2.0, CRM and downstream systems on SAP BTP
- Build and extend controller logic for purchase history, quote lifecycle and pricing workflows across async OData service calls
- Integrate SAP CPI iFlows and BTP destinations orchestrating data flow between CPQ, CRM and ERP backends
- Embed CPQ 2.0 via postMessage cross-frame communication while preserving context propagation
- Ship quote lifecycle features – pricing, approvals, billing plans, milestone tracking and DocuSign e-signatures
- Develop and test with mock data environments and OData metadata

React.js / Python Developer

2025

Tata Consultancy Services (SAP Account)

- Built reusable React.js + TypeScript components with hooks and state management
- Developed Python and Flask utilities, including PowerPoint generation
- Integrated frontend views with backend REST services

React.js Developer

2025

Tata Consultancy Services (NielsenIQ)

- Worked on React.js application development
- Implemented frontend and UI enhancements
- Resolved application tasks and issues

Frontend Developer

2021 – 2024

Tata Consultancy Services (Pfizer)

- Translated Figma designs into production UI for comirnaty.com, cvdvaccine-us.com, covid19pfizer.com and covidvaxoption.com
- Built reusable React.js + TypeScript components with Redux state, forms, routing and data grids
- Shipped responsive, performance-optimized interfaces across devices
- Delivered in Agile/Jira workflows with Git branching, merges and Canvas CMS publishing

TEACHING

- Content Creator, Coding Lifestyle 4u (YouTube) – beginner Python and Tkinter project tutorials
- Teach practical coding with Python, Tkinter and customtkinter through hands-on builds

EDUCATION

B.Tech (CSE) – Integral University, Lucknow (2020) – 78%

Intermediate (ISC) – Lucknow Public School (2015) – 74%

High School (UP Board) – Playway High School (2013) – 84.83%
